Problem - Corporate Passive Income

- Profit not needed for growth, operations or personal needs are invested in an Alternative Investment
- Passive investment income generated by the Alternative Investment is taxed at the top corporate rate

- ✓ Growth of the life insurance policy is fully tax-exempt - no taxable passive income is generated (1)
- ✓ Reduces the impact of the SBD grind (6)
- ✓ The cash surrender value of the life insurance policy is an asset on XCo's balance sheet
- ✓ Premiums are not deductible, in specific circumstances premiums may be deductible

Assumptions

Helping You Make An Informed Decision

We help private Canadian shareholder's implement and manage permanent life insurance plans, fully sheltered from tax, and move residual wealth to the next generation tax-free. The objective is to minimize the impact of market volatility over time by seeking out policy returns that are not correlated to the broader equity markets. Our focus is capital preservation, risk reduction, and consistency over time.

This presentation demonstrates the advantages of using permanent life insurance as part of your overall tax and estate planning strategy. We highlight the impact of planning with, and without, life insurance, using apples-to-apples comparisons, with conventional tax and estate planning structures.
